

LUNA

**BRUGNETTI EXCELLENCE,
ACCESSIBLE TO ALL**

LUNA is Officine Brugnetti's new entry-level professional coffee machine, launched in 2024 to offer quality and reliability at a competitive price. Ideal for those seeking excellent performance without compromise.

BRUGNETTI QUALITY AND RELIABILITY:

LUNA stems from Officine Brugnetti's philosophy of offering high-quality and reliable professional coffee machines, even in the entry-level segment. Designed to meet the needs of international markets, Luna combines excellent performance with a competitive price, without sacrificing the attention to detail and robustness that distinguish the Brugnetti brand.

DESIGN AND CUSTOMIZATION:

LUNA stands out for its modern and functional design. Available in white and black, it can be customized with customer-requested colors as an optional extra, to adapt to the style of any venue.

TECHNOLOGY AND PERFORMANCE :

- **Volumetric Programming (Automatic Version):**
4 programmable volumetric dosages with integrated shot timer for precise extraction control.
- **Ring Groups:**
Ring groups for optimal thermal stability and uniform extraction.
- **Manual Delivery:**
Manual coffee delivery button for greater flexibility.
- **Stainless Steel Steam Wands:**
2 stainless steel steam wands for perfect milk frothing.
- **Programmable Water Delivery:**
Programmable water delivery wand for optimal hot water management.
- **Built-in Volumetric Pump:**
Built-in volumetric pump for constant pressure.
- **Automatic Leveler:**
Automatic boiler leveler for optimal water level at all times.
- **Temperature Control:**
Temperature control via pressure switch for reliable thermal stability.
- **Standard digital shot timer:**
The integrated digital timer allows for precise control of brewing times, ensuring optimal and consistent extraction for every coffee.
